KB - 200 Baby Changing Station

Description

The KB200's sleek design and color palette matches modern restroom design and décor. The Baby Changing Station is constructed of polypropylene and has a unibody steel chassis for superior strength. The steel-on-steel hinge has greater resistance to wear and improved durability and the gas spring mechanism ensures smooth open and close of the unit. The dual liner cavity with lock minimizes operator refills and discourages potential vandalism. The product includes child protection straps and bag hooks. ASTM and EN compliant. Meets ADA requirements when mounted properly. Bed surface exclusively contains Microban® antimicrobial, reducing odor causing bacteria. Liner dispenser features two liner cavities. Each cavity holds 25 liners, for a combined total of 50 liners per unit. Constructed with 16% recycled materials; contributes to LEED certified building requirements.
